THE BATH CARE

We manufacture all luxurious bath fittings with REPCO brand.

All our products are made from Best quality brass material. We inspect carefully all products in matter of quality before selling. All our products are very comfortable to use. We manufacture large range of design. We have confidence that if you choose our any product then you will be fully satisfy. We believe not only in quality and customer satisfaction, but keeping relation life time with customer.

Our aim is to go on top in providing bath fitting items with honestly. We provide all items after huge market research and according to customer wants. We believe in business with best relationship to customer.

## Mission

We integrate customer specification with our expertise of manufacturing to deliver product with the desired result in a cost-effective manner. We are dedicated to be a world leader in Brass Sanitary Fitting and Accessories and Customized Products by providing best service, consistent quality and on-time delivery at a competitive price. We satisfy our customers by dimensional & provisionally accuracy.

## Vision

Our vision is to be the company of choice for our customers and our employees. We use our resources efficiently enough to provide high precision sanitary fitting and accessories at highly competitive rates.

## SOURCING

Brass is source from the most reputed vendors and is inspected by QC staff before it is sending for casting.

## CASTING

Virgin brass and scrap is casted in various molds as per the pattern using the Die Casting Process.

## MACHINING

Casted products are machined as per the design requirements to create threads.

## GRINDING

The machined product is thus grinded using belt grinders to achieve smooth finishes without sharp edges.

## OUR INFRASTRUCTURE (FULL IN-HOUSE PRODUCTION)

## POLISHING

The grinded pieces are polished on high speed polishing machines by experienced workers to achieve perfect surface with high glass & shine.

## TESTING

Having undergone the above process, the pieces are then checked for surface defects. The water carrying components are pressure tested using Hydraulic Testing machine to detect any leakage in the casting.

## PLATING

The tested and okayed pieces then undergo the process of plating finishing.

## ASSEMBLY

The coated pieces are assembled and once again checked and tested with Hydraulic Pressure. The tested pieces are then packed in corrugated boxes and ready for dispatch.

**Our High Flow Single Lever  
Concealed Diverter Technical Futures**

**10**  
Years Warranty  
Bathcoach Diverter  
Come With  
"10 Years Warranty"

**10**  
Comes With  
Water Leveller

The Single Lever Concealed Diverter Operates At A Higher Efficiency As Compared To Regular Diverter.  
It Can Operate At A Minimum 0.4 Bar Pressure.

FLOW RATE (PER LITER PER MINUTE)						
Tank Height	20 FT	25 FT	30 FT	60 FT	90 FT	120 FT
Water Pressure	0.4 BAR	0.5 BAR	1.0 BAR	2.0 BAR	3.0 BAR	4.0 BAR
Liter	13	23	32	45	55	62

**Faucets
